PROFESSIONAL SUMMARY

IIT Madras Data Science undergrad with active research in semantic web technologies at NIT Trichy and a strong foundation in Python, SPARQL, and knowledge graphs.

EDUCATION

Indian Institute Of Technology–Madras (IIT–M)

Bachelor's of Science in Data Science

- **Achieved** an A grade in **Computational Thinking**.

Sep 2025 - Present

CGPA : 8.00 / 10.00

WORK EXPERIENCES

Research Intern (CSE) | Internship

National Institute of Technology Tiruchirappalli (NIT Trichy)

- Working on **Semantic Web** concepts including **RDF**, **SPARQL**, and **ontology modeling** under the guidance of **Dr. A. Santhanavijayan**.

- **Secured** a competitive summer research internship in the CSE department.

- **Collaborated** on research projects involving real-world datasets and model development.

Technologies / Skills Used : Python, SPARQL, RDFLib, Web Scraping, Neo4j

May 2026 - Present

On-site • India

Intern (NPTEL) | Internship

VLED Labs, Indian Institute of Technology Ropar (IIT Ropar)

- Built scalable application logic using **JavaScript** and **TypeScript**, enhancing **code maintainability**.

- Developed **React** components emphasizing **reusable UI** and efficient **state management**.

- Collaborated with cross-functional teams to implement **AI-driven features** and improve **code quality**.

- Debugged and optimized application workflows, resulting in enhanced **performance** and **stability**.

Technologies / Skills Used : JavaScript, TypeScript, React

Feb 2026 - Present

Remote • Remote

Assistant Partner (Apprentice) | Contract

Kotak Mahindra Life Insurance

- Coordinated and led training sessions, enhancing performance reviews for Life Advisors.

- Streamlined recruitment and onboarding processes, improving candidate evaluation efficiency.

- Managed operational workflows and ensured compliance with standards in a financial services environment.

Technologies / Skills Used : Microsoft Excel, Customer Relationship Management (CRM), Reporting & Analysis, Google Sheets, CRM Systems

Dec 2025 - Present

On-site • Borivali, Mumbai, India

AI Data Operations | Freelance

Scaler AI Labs

- **Executed** structured **CRM workflow** tasks in simulated enterprise environments, including **Salesforce**, **Stripe**, and campaign management systems.

- **Performed** data normalization, pipeline updates, and campaign lifecycle operations according to detailed task specifications.

- **Contributed** to **AI tool evaluation** by validating multi-step business workflows across CRM interfaces.

- **Maintained** high task acceptance accuracy during instruction-based evaluations.

Technologies / Skills Used : Salesforce, Stripe, CRM Systems, Data Annotation, Quality Assurance (QA)

Nov 2025 - Present

Remote • Mumbai India

PROJECTS

Seed – Smart Trading & Portfolio Tracking Platform | 🌐 Github

Developer

Feb 2026 - Present

- **Developed** a web app for **trading** and **portfolio tracking** to monitor stock performance and simulate investment strategies.

- **Integrated** real-time stock data APIs to track price movements and portfolio value.

- **Implemented** features such as watchlist management, portfolio analytics, and profit/loss tracking.

- **Designed** interactive dashboards with data visualizations to enhance decision-making.

Technologies / Tools Used : React, Chart.js, Rest APIs, MongoDB

PROJECTS

Sehat Saathi |  Github  Website

Project Admin

Jan 2026 - Feb 2026

- Developed a **mobile-first health platform** featuring symptom tracking, **AI-driven health guidance**, affordable medicine ordering, and real-time hospital discovery.
- Incorporated government health schemes, **multilingual support**, and low-bandwidth optimization to enhance accessibility for rural and low-income users across India.
- Inspired by the SAATHI initiative at Google for Startups, Sehat Saathi addresses critical gaps in healthcare accessibility.

Technologies / Tools Used : React, Firebase, Vite, Node.js, Express.js, AI

Smart Portfolio Optimizer |  Github

Developer

Jun 2025 - Jan 2026

- Engineered a quantitative portfolio optimization tool utilizing **Modern Portfolio Theory (MPT)** to evaluate risk-return tradeoffs.
- Executed calculations for expected returns, covariance matrix, portfolio volatility, and Sharpe ratio using **NumPy** and **Pandas**.
- Conducted simulations of over 10,000 random portfolios to pinpoint optimal asset allocations for **maximum Sharpe ratio** and **minimum volatility**.

Technologies / Tools Used : Python, NumPy, Pandas, Matplotlib

Trip Assistant |  Github

Contributor

Aug 2025 - Nov 2025

- Enhanced** navigation UI to improve layout behavior and responsiveness.
- Refined** frontend interface within an existing **React + TypeScript** codebase.
- Adjusted** component structure and styling to boost usability.

Technologies / Tools Used : HTML, CSS, TypeScript, React

SKILLS

Frameworks Libraries :	React, Django, Pandas, NumPy, Scikit-learn, TensorFlow, OpenCV
Programming Languages :	Python, C++, JavaScript
Soft Skills :	Data Structures & Algorithms, Machine Learning, OOP
Tools Platforms :	Git, GitHub, VS Code

AWARDS & ACHIEVEMENTS

- Awarded the **LIC Golden Jubilee Scholarship** for outstanding academic excellence and merit-based selection.

POSITIONS OF RESPONSIBILITY

Technical Operations Coordinator

Gir House

Present

Indian Institute of Technology Madras

- Designed** an official website for a regional student society representing Maharashtra and Gujarat, ensuring a **responsive UI** and **well-structured content** to enhance communication and visibility for members.

Hackathon Mentor

Elite Hack 1.0

March 2026

Elite Coders (Open Source)

- Guided teams** by sharing industry insights, enhancing participants' ideas into more robust projects.

TEACHING EXPERIENCE

Tech Mentor (Python)

Topmate.io

Feb 2026

- Conduct 1:1 mentorship sessions for students on **Python programming**, **Data Science roadmap**, and project development.
- Assist beginners in building strong tech profiles through GitHub projects, resume enhancement, and contributions to open-source initiatives.

Python - Course Teaching Assistant

Gen-z IITian

Present

IIT Madras

- Taught **Python programming** to IIT Madras BS students through a YouTube program with over **15K subscribers**.
- Delivered engaging lectures on core concepts such as data structures, loops, and functions.
- Guided students in effective problem-solving, debugging, and writing clean code.
- Introduced practical applications utilizing **NumPy**, **Pandas**, and **Matplotlib**.
