Bharadwaj N

Data Science Freak!

Bengaluru, Karnataka, India

Summary

As a fast learner with a passion for machine learning and data science, I have a strong foundation in Python, scikit-learn, Pandas, Keras, TensorFlow, NumPy, and Matplotlib. I hold several industry certifications in machine learning, including specializations in supervised learning, unsupervised learning, recommendation systems, anomaly detection, and advanced learning algorithms. I have extensive experience deploying machine learning models from start to production, with a focus on scalability and performance. With proficiency in Visual Studio and other development tools, I am well-equipped to handle end-to-end machine-learning projects. I am eager to leverage my skills and expertise to drive innovative solutions and achieve business success.

Experience

Data Drishti Club, Alliance University

1 year 6 months

Club President

September 2025 - Present (8 months)

Bengaluru, Karnataka, India

Member

November 2024 - Present (1 year 6 months)

Bengaluru, Karnataka, India

Student Activities Coordinator

January 2025 - September 2025 (9 months)

Bengaluru, Karnataka, India

- Organized and managed student events at Data Drishti Club, Alliance University, incorporating continuous feedback for improvement.
- Collaborated with student community to construct engaging and effective events, fostering a vibrant campus culture.

Bandipur House, IIT Madras BS Degree

Member

May 2024 - Present (2 years)

Bengaluru, Karnataka, India

EUREKA : ENTREPRENEURSHIP CLUB IIT-Madras BS

Core Member

February 2025 - January 2026 (1 year)

Chennai, Tamil Nadu, India

- Organized and conducted club events as a Core Member at EUREKA: ENTREPRENEURSHIP CLUB IIT-Madras BS, enhancing leadership and team skills.
- Collaborated with team members to plan and execute successful events, fostering a sense of community within the club.
- Developed strong organizational and communication skills through coordinating logistics and managing event timelines.

Ramaiah Institute Of Technology

Student Researcher

June 2023 - July 2024 (1 year 2 months)

Bengaluru, Karnataka, India

| . & ,

At Ramaiah Institute of Technology, I was a Student Researcher deeply engaged in the world of Information-Centric Networks, explicitly delving into Named Data Networking. Swiftly embracing the intricacies of this paradigm, I seamlessly merged theoretical understanding with practical machine-learning skills.

My role extended beyond theoretical comprehension, as I skillfully employed machine learning techniques to optimize data retrieval and enhance network performance within the Named Data Networking framework. This multidisciplinary approach underscored my adaptability and capacity to innovate across diverse domains.

A pivotal juncture was marked by my authorship and subsequent publication of a research paper. My meticulous analysis of numerous papers, coupled with collaborative efforts with peers and rigorous experimentation, culminated in a cohesive paper that not only enriched academic discourse but also found applications in real-world implementations of Named Data Networking.

Notably, I actively contributed to the field by working on security issues, namely Content Poisoning Attacks (CPA), and providing valuable assistance in addressing Interest Flooding Attacks (IFA) within the Named Data Network context. These hands-on experiences fortified my practical understanding and reinforced my commitment to confronting challenges in the field.

My tenure as a Student Researcher stands as a testament to my aptitude for swiftly grasping intricate concepts, synthesizing diverse disciplines into coherent strategies, and effectively communicating intricate ideas through research publication. Fueled by an unrelenting drive for exploration, I am poised to continue propelling innovation and driving transformative progress in the realm of information-centric networks.

International MUN

Ambassador

August 2023 - September 2023 (2 months)

Proud to Represent as Official Campus Ambassador for International MUN Philippines 2023! #

Greetings from Bharadwaj in India! It is with great enthusiasm that I announce my role as the Official Campus Ambassador for the upcoming International Model United Nations event. As a fervent supporter of positive change, I am honored to represent my university and contribute to this dynamic platform where voices around the world unite to address global challenges.

Diplomacy and collaboration are the cornerstones of progress, and as the Official Campus Ambassador, I am dedicated to fostering these values. At International MUN Philippines 2023, I am committed to curating engaging discussions, promoting innovative ideas, and facilitating open dialogues embodying global cooperation's spirit.

Empathy knows no boundaries, and I am determined to leverage my empathetic skills to bridge divides and establish connections that lay the foundation for enduring peace. Through shared understanding and cooperation, the impact of this event will extend far beyond its immediate scope.

At IMUN, every voice matters, and I am thrilled to represent the chorus of change agents and forward-thinkers as the Official Campus Ambassador. Together, we will leave an indelible mark on history by taking collective steps

towards a world that embraces diversity, seeks pragmatic solutions, and upholds the values of unity and collaboration.

Join me on this extraordinary journey as we contribute to a world transformed by ideas and driven by hope. Let's create a lasting impact, one resolution at a time.

GetAFix

Machine Learning Engineer

March 2023 - September 2023 (7 months)

Bangalore Urban, Karnataka, India

I'm a Machine Learning Engineer with extensive experience in developing and implementing custom algorithms and models to solve complex business problems across various industries, including healthcare, finance, and e-commerce. I've worked with structured, unstructured, and semi-structured data and have developed a deep understanding of machine learning algorithms, statistical modeling, and data analysis techniques.

In addition to my experience, I have also developed a cutting-edge recommender system algorithm specifically designed for the automobile industry. This algorithm leverages machine learning techniques to provide personalized recommendations to customers based on their preferences and previous behavior. This project helped improve customer engagement and satisfaction, and it was a significant success for the company.

I believe that collaboration and effective communication are essential to delivering successful machine learning projects. I'm passionate about using machine learning to drive innovation and solve complex problems, and I'm excited to continue contributing to this exciting field.

Schoolhouse.world

Student Tutor

June 2022 - August 2023 (1 year 3 months)

Mountain View, California, United States

I volunteered as a tutor on Schoolhouse.world, where my sessions were featured as trending courses on their Instagram page. I taught subjects including Drawing, High School Math, and programming languages such as C++, Java, and Python to students globally, including middle school students from the USA during a summer program.

- **Recognition and Achievements:** Throughout my tutoring journey, I received 14 badges for my contributions and was actively involved in helping students prepare for the SAT Math section, which further enhanced my credibility as a tutor.
- **Positive Feedback:** I garnered excellent feedback from students, highlighting the effectiveness of my teaching methods and the positive impact of my sessions on their learning experiences.
- **Commitment to Education:** My involvement with Schoolhouse.world reflects my dedication to providing accessible education and fostering a supportive learning environment for students worldwide, aligning with the platform's mission to connect learners through peer tutoring.

Education

Indian Institute of Technology, Madras

Bachelor's of Science, Data Science and Applications · (May 2024 - August 2028)

Alliance University

Bachelor of Technology - BTech, Aerospace, Aeronautical and Astronautical/Space Engineering · (September 2024 - July 2028)

MS Ramaiah Pre-University College

High School Diploma, Computer Science · (July 2022 - March 2024)
